Mafatlal M. Kher, PhD

Plant biotechnology · Plant virology · Plant tissue culture

Ariel University, Israel
mafatlalmkher@gmail.com | ORCID 0000-0001-5600-0040
mafatlalmkher-cpu.github.io

Professional profile

Plant biotechnologist and plant virologist with more than 15 years of research experience in plant tissue culture, grapevine virology, molecular diagnostics and conservation propagation. Research combines shoot tip and meristem culture with PCR and RT-qPCR to support grapevine virus elimination and indexing. Additional interests include somatic embryogenesis, seed dormancy and germination, and propagation of medicinal and forest trees. Experience spans university teaching, student supervision, competitive grant writing, editorial service and industry consultancy.

Research and academic appointments

Postdoctoral Researcher | Ariel University, Israel

January 2022-present · Grape and Wine Research Group · Supervisor: Prof. Elyashiv Drori

Develop grapevine propagation and virus-indexing workflows spanning shoot-tip establishment, multiplication, rooting and acclimatization of indigenous varieties. Work on virus-elimination approaches using thermotherapy, meristem and etiolated shoot-tip culture. Perform RNA extraction from leaf and woody tissues, cDNA synthesis, gradient PCR and RT-qPCR indexing. Conduct OIV-based characterization, powdery mildew assessment and fruit-development documentation.

Work on hawthorn seed biology and in vitro propagation, and on culture establishment, callus and shoot culture, and vegetative propagation of *Cupressus*. Contribute to ongoing somatic-embryogenesis protocol development. Research partner and proposal contributor on three KKL-JNF-funded projects with Prof. Drori. Support MSc research and mentoring, PhD recruitment, procurement and instrument service coordination.

Assistant Professor of Biotechnology | GSFC University, India

7 April 2019-14 December 2021 · School of Biosciences

Delivered more than 20 undergraduate and postgraduate courses and developed e-content for six courses. Taught Plant Tissue Culture, Plant Biotechnology, Virology, Research Methodology, Environmental Biotechnology and Developmental Biology; designed and assessed laboratory sessions.

Supervised MSc dissertations and undergraduate and postgraduate research. Served as Officer-in-charge of the Admission Task Force and Student Placement Committee coordinator; founder member of the Biotechnology Club. Convened the June 2021 international plant tissue culture webinar series, with 21 expert talks and more than 1,500 registrations from 42 countries.

Research Scholar | Sardar Patel University, India

2009-2018 · P.G. Department of Biosciences · Supervisor: Prof. M. Nataraj

Researched micropropagation and regeneration of medicinal plants, acclimatization and culture-facility management. Co-supervised MSc projects. Served as Project Fellow on the UGC-sponsored Hyphaene dichotoma micropropagation project from 1 March 2011 to 31 January 2014.

Adhoc Lecturer in Biology | B.C.J. Science College, Khambhat, India

2008-2009

Taught Morphology and Anatomy of Flowering Plants, and Biology and Diversity of Lower Plants.

Education

PhD in Botany | Sardar Patel University, India

Degree awarded March 2020 · Thesis defended December 2018

In vitro propagation of some medicinally important plants. P.G. Department of Biosciences, Vallabh Vidyanagar. Advisor: Prof. M. Nataraj.

MSc in Botany | Sardar Patel University, India

December 2008

Distribution and developmental biology of floral nectaries of Aegiceras corniculatum (L.) Blanco. Advisor: Prof. J.S.S. Mohan.

BSc in Botany | The Maharaja Sayajirao University of Baroda, India

October 2006

Funded research and proposal development

KKL-JNF, Israel: Research partner and proposal contributor with Prof. Elyashiv Drori on three KKL-JNF-funded projects.

Since February 2026: Tissue Culture Propagation and Drought Tolerance Assessment of *Cupressus dupreziana* and *Hesperocyparis guadalupensis*.

Funded since October 2024: Advancing the Conservation and Management of *Cupressus atlantica* Gaussen through Optimization of Somatic Embryogenesis.

2022-2025: Development of methods for propagating spiny hawthorn and red hawthorn from seeds and cuttings. Project began October 2022.

Earlier funded proposals with Prof. M. Nataraj: Proposal writer for Micropropagation of *Ailanthus excelsa* Roxb., a multipurpose tree (GSBTM, 2017-2020), and Micropropagation of *Hyphaene dichotoma*, a rare and endemic palm (UGC, 2011-2014). Awards were made to the eligible principal investigator.

Consultancy and industry engagement

Prem Sarita Agribiotech, Rajpipla, India | 2016-present. Plant tissue culture consultancy; hybrid engagement during 2016-2020 and online engagement from 2020.

Gujarat Forest Department | 2019. Co-opted member of the Plant Tissue Culture Technical Committee, Silviculture and Forest Utilization Circle, Rajpipla. Evaluated tissue culture service providers for *Dendrocalamus*, *Melia* and *Bambusa*.

GSFC Agrotech | 2019-2020. Collaboration resulting in a joint publication on strawberry tissue culture.

Teaching and mentoring

Teaching: Undergraduate and postgraduate plant biotechnology, tissue culture, virology, research methodology, environmental biotechnology and developmental biology at GSFC University; undergraduate botany subjects at B.C.J. Science College.

Supervision and mentoring: Provided mentoring support for MSc research at Ariel University; primarily supervised MSc dissertations and mentored student research and industrial internships at GSFC University; co-supervised 20 MSc projects during the doctoral period at Sardar Patel University.

Editorial service and awards

Editorial Board Member, *BMC Plant Biology* (Springer Nature). Handling Editor, Tissue Culture and Conservation Biology section, *Vegetos*. Guest Editor, *Horticulturae* special issue on Innovations in Micropropagation of Horticultural Plants.

Peer-review service across more than 30 international journals, including *Plant Cell, Tissue and Organ Culture*, *In Vitro Cellular and Developmental Biology - Plant*, *Plant Methods*, *Scientia Horticulturae* and *Industrial Crops and Products*.

2026: Editorial Contribution Award and Author Service Award, *BMC Plant Biology*, Springer Nature.
2018: Outstanding Reviewer Award, *Industrial Crops and Products*, Elsevier.
2016: Outstanding Reviewer Award, *Scientia Horticulturae*, Elsevier.

Technical expertise

Molecular diagnostics: DNA and RNA isolation from woody and recalcitrant tissues; cDNA synthesis; conventional PCR; gel electrophoresis; SYBR Green and TaqMan RT-qPCR/qPCR; QuantStudio 1, Bio-Rad T100, NanoDrop and Bio-Rad Gel Doc.

Plant tissue culture: Micropropagation; shoot tip and meristem culture; somatic embryogenesis; organogenesis; ex vitro and in vivo rooting; acclimatization; MS and modified media formulation; cytokinin and auxin balancing; contamination control.

Seed biology: Physical and physiological dormancy; chemical and mechanical scarification; stratification; imbibition and germination kinetics; early-seedling biochemistry; viability testing.

Histology and microscopy: Paraffin embedding, sectioning and staining for light microscopy; stereo-zoom microscopy; embryo developmental staging.

Data and research tools: GraphPad Prism, SPSS, R, BioRender and Figure Lab; Mendeley and EndNote; Web of Science, Scopus, PubMed and Google Scholar; literature screening, reference verification and research workflows using large language models.

Laboratory operations: Procurement, inventory and vendor management, instrument service coordination and maintenance follow-up.

Professional development

2025: PLANT Workshop - Plant Sciences in the Anthropocene, Université Paris-Saclay, Institut Pascal, France, 24 March-4 April.

2024: Data Carpentry Genomics training, Weizmann Institute of Science, 29-31 October.

2020: Online Teaching and Assessment Pedagogy, TEQIP-III Faculty Development Programme, Dibrugarh and Panjab University, 24-29 August.

2020: Coursera courses: Introduction to the Biology of Cancer with honours (Johns Hopkins University); The Science of Stem Cells (AMNH); Understanding Plants Parts I and II (Tel Aviv University); Introduction to Algae (UC San Diego); DNA Decoded (McMaster University).

2018: Elsevier Researcher Academy - Publishing Open Access and Funding Hacks for Researchers.
2016: Springer Author Academy - nine modules covering journal and book authorship, peer review, open access and scientific English.

Professional membership and languages

Society for Plant Research / VEGETOS, India (since 2026).

English: professional working proficiency. Gujarati: native. Hindi: advanced. Marwadi and Wagadi: conversational. Sanskrit: intermediate.

Invited talks and keynote lectures

Kher MM (2026). Plant tissue culture and biodiversity conservation. International Conference on Biodiversity Protection: Its role in sustainable development, 18-19 May 2026, Janardan Rai Nagar Rajasthan Vidyapeeth, Udaipur, Rajasthan, India. (Online)

Kher MM (2024). In vitro propagation of bamboo. Invited lecture, Garden City University, Bangalore, India. (Online)

Kher MM (2024). Harnessing millet: biotechnological innovations. Invited talk, international conference, Garden City University, India. (Online)

Kher MM (2023). Strategies for commercial plant tissue culture. Invited talk, Quest International University (Malaysia) and SAGE University (India). (Online)

Kher MM (2023). Innovative solutions for sustainable agriculture through plant tissue culture. Invited talk, Saurashtra University, India. (Online)

Kher MM (2022). How professional memberships can advance your career. Invited talk, BHU Varanasi and Geochemical Society, India. (Online)

Kher MM (2020). Bamboo the green gold. Keynote, International Webinar on Plants for Sustainable Living of Humankind, SPMVV, Tirupati, India. (Online)

Kher MM (2019). Plant tissue culture: problems and solutions. Keynote, National Workshop on Commercial PTC, Parul University, India. (In-person)

Conference presentations

Oral presentations

Etiolated shoot tip culture: a novel approach for virus-free grapevine. Oral, Vine and Wine Research Institute, Ariel University, Israel. 2025

Thidiazuron-induced somatic embryogenesis and organogenesis from leaves and internodes of Pluchea lanceolata. National Conference on Current Trends in Biological Sciences-II, Sardar Patel University, Vallabh Vidyanagar, India, 9 February 2018.

In vitro propagation of Clerodendrum phlomidis Linn. International Conference on Current Status, Opportunities and Challenges in Medicinal Plants and Natural Product Research, Uka Tarsadia University, Bardoli, India, 24 to 26 September 2014.

Micropropagation of Uraria picta. National Conference on Biodiversity and Its Role in the Modern World, SPDM/SSB/SHD/SMA College, Shirpur, India, 12 to 13 October 2012.

Research proposal in biotechnology. National Workshop on Research Methodology, Sardar Patel University, India, 12 to 14 March 2012.

Poster presentations

Kher MM, Drori E (2025). Etiolated shoot tip culture: a novel method for virus-free grapevine propagation. International Advances in Plant Virology, Murcia, Spain, 8-11 April 2025.

Kher MM, Viner L, Shecori S, Rahimi O, Lubin BCR, Drori E (2023). In vitro propagation of ancient indigenous grapevine varieties of Israel. Vine and Wine Research Institute conference, Ariel University, Israel, 16 May 2023.

Micropropagation of Dendrocalamus strictus (Roxb.) Nees for social forestry. National Conference on Current Trends in Biological Sciences-V, Sardar Patel University, India, 15 February 2020.

Source of callus origin and plant growth regulators responsible for multiple regeneration pathways in Crataeva nurvala Buch Ham. International Conference on Biomolecular and Biotechnological Aspects of Medicinal Plants, L.M. College of Pharmacy, Ahmedabad, India, 18 to 19 October 2019.

Micropropagation of Merremia quinquefolia (L.) Hallier F. from nodal explants. National Symposium on Microbial Biotechnology, N.V. Patel Science College, Vallabh Vidyanagar, India, 26 February 2014.

Micropropagation of Hibiscus radiatus, a medicinal plant. Impact of Plant Tissue Culture on Advances in Plant Biology and XXXIII PTCA(I) Annual Meet, Ahmedabad, India, 19 to 21 January 2012.

Callus induction and plant regeneration in Crataeva nurvala (Buch. Ham.). Zonal Seminar, B.A. College of Agriculture, Anand Agricultural University, India, 17 January 2012.

Publications

44 journal articles and reviews, and one book chapter. Full publication record follows, grouped by output type.
